

WORLD OF GRAVETTIAN HUNTERS

16-20 MAY 2016, KRAKÓW, POLAND

Conference programme – oral presentations

Tuesday 17.05.2016	Author	Title
9.00 - 9.20	Opening of the Conference	
9.20 – 10.00	Jiří A. SVOBODA	Gravettian populations and lifestyles: Combining the evidence
10.00 – 10.40	Marco PERESANI	A view on the Epigravettian in Mediterranean Europe based on the most recent research advancements
10.40 – 11.00	Coffee break	
SESSION 2		
11.00 – 11.20	M. BRADTMÖLLER et al.	Patterns and palimpsests – Changing modes of occupation during the Gravettian of Cueva Morín, Cantabria
11.20 – 11.40	J. MARREIROS et al.	New evidences from the early Gravettian from Vale Boi: a cache point context in Southern Iberia
11.40 – 12.00	D. ÁLVAREZ-ALONSO et al.	Short-term human occupations and territorial adaptative strategies during the Gravettian at Coímbre cave (Asturias, Northern Iberian Peninsula)
12.00 – 12.20	D. DRUCKER et al.	Gravettian hunters in a Mediterranean context: reconstructing environment and diet at the Serinyà Caves (Girona, Spain) using stable isotopes
12.20 – 12.40	F. BOSCHIN, P. BOSCATO	Mammal exploitation during the Epigravettian of Grotta Paglicci (Apulia, Southern Italy)
12.40 – 13.00	S. ARRIGHI et al.	3D microscopy and Epigravettian engraved mobiliary art: a case study from Grotta Paglicci (Apulia, Southern Italy)
13.00 – 14.30	Lunch	
SESSION 3		
14.30 – 14.50	M. PERESANI	On the Apennine ridge. The human frequentation at the Piovesello open site 31ky BP
14.50 – 15.10	S. VILLOTTE et al.	The Gravett'Os project
15.10 – 15.30	A. TALLER, N. CONARD	Hohle Fels Cave and its significance for the origin and evolution of the Gravettian
15.30 – 15.50	S. MÜNDEL et al.	Gravettian bone tools from the Swabian Jura: Raw material and Chaîne opératoire
15.50 – 16.10	I. BRAUN, M. BRADTMÖLLER	New insights from the Gravettian open air site of Feldberg „Steinacker“, Müllheim/Baden (Germany)

WORLD OF GRAVETTIAN HUNTERS

16-20 MAY 2016, KRAKÓW, POLAND

Wednesday 18.05.2016	Author	Title
SESSION 4		
9.00 – 9.20	B. HROMADOVA	Losing the cool? Towards the question of the mammoth tusk processing in Pavlovian
9.20 – 9.40	L. KLARIC et al.	Moravany-Podkovicica debunked, reassessment of an almost unknown Willendorf-Kostienkian collection of Western Slovakia
9.40 – 10.00	G. LENGYEL	The Gravettian Epigravettian Linegae in the Carpathian Basin
10.00 – 10.20	M. HÄNDEL	The Gravettian occupation in the Wachtberg area of Krems, East Austria
10.20 – 10.40	A. WIŚNIEWSKI et al.	New evidence of Epigravettian in the area north of Sudetes
10.40 – 11.00	Coffee break	
SESSION 5		
11.00 – 11.20	W. DAVIES, R. FARBSTEIN	Networks, creativity and the creation of space in the Pavlovian and Epigravettian: what ceramic technologies can tell us
11.20 – 11.40	P. SOCHA	Modelling of climate and ecological changes in the glacial – interglacial and stadial – interstadial cycles based on rodent communities
11.40 – 12.00	A. PRYOR et al.	Seasonal mobility and food storage on the European mammoth steppe
12.00 – 12.20	D. DRUCKER et al.	The end of the mammoth steppe in central East European plains during the Epigravettian: insights from collagen stable isotopes
12.20 – 12.40	C. WIBING et al.	Evidence for ecological diversity among Gravettian hunters across Europe. A stable isotopic approach
13.00 – 14.30	Lunch	
SESSION 6		
14.30 – 14.50	G. HAYNES et al.	Some Natural History of Mammoths at the Gravettian Site Kraków Spadzista B: Shoulder Heights, Demography, Life Conditions
14.50 – 15.10	H. BOCHERENS et al.	Stable isotope, tooth microwear, and palaeogenetic investigations on the mammoth (<i>Mammuthus primigenius</i>) of Kraków Spadzista
15.10 – 15.30	N. KOWALIK et al.	Seasonal migration of woolly mammoth from the Kraków Spadzista site reconstructed by Sr isotopic composition of tooth enamel
15.30 – 15.50	M. GERMONPRÉ et al.	Comparing Gravettian and Epigravettian canids from Europe with Late Pleistocene canids from Yakutia
15.50 – 16.10	A. PERRI et al.	Variation in Large Canids from Dolní Věstonice II, Czech Republic
16.10 – 16.30	S. SÁZELOVÁ et al.	Pathologies on large canid skeletons: The case of Dolní Věstonice II (Czech Republic)

WORLD OF GRAVETTIAN HUNTERS

16-20 MAY 2016, KRAKÓW, POLAND

Thursday 19.05.2016	Author	Title
SESSION 6		
9.00 – 9.20	P. HAESAERTS et al.	From Onset to Dawn. Palaeoenvironmental and Chronological Context of Gravettian and Epigravettian Hunter-Gatherers in Central and Eastern Europe
9.20 – 9.40	P. WOJTAL, J. WILCZYŃSKI	Carnivores in everyday life of Gravettian hunter-gatherers in Central Europe
9.40 – 10.00	A. KANDEL	A view from the Highlands: Aghitu-3 and the Upper Paleolithic settlement of Armenia
10.00 – 10.20	N. REYNOLDS	The Gravettian backed lithic assemblages of European Russia: a new look at their variation and chronology
10.20 – 10.40	S. LEV	Gravettian on the Russian plane after the Last Glacial Maximum (example of Zaraysk).
10.40 – 11.00	Coffee break	
SESSION 7		
11.00 – 11.20	S. PEAN et al.	New field and analytic results from the Buran-Kaya III (Crimea) Gravettian layers: implications for the understanding of Anatomically modern human dispersal in South-Eastern Europe
11.20 – 11.40	L. CRÉPIN et al.	Subsistence behaviours during the Gravettian in South-Eastern Europe: new insights from the last investigations in Buran-Kaya III (Crimea).
11.40 – 12.00	K. GAVRILOV	Schematic figurines in anthropomorphic Gravettian sculpture of the Russian Plain: types and archaeological context
12.00 – 12.20	D. ESKOVA, K. GAVRILOV	The flint with engravings from an Eastern gravettian site Khotylevo 2
12.20 – 12.40	R. DINNIS	The “Anosovka-Tel'manskaya culture” of Kostënki and the issue of a late Streletsian
12.40 – 13.00	O. YANSHINA, S. LEV	Mastering of new technology in Gravettian: ochre or ceramics?
13.00 – 14.30	Lunch	
SESSION 8		
14.30 – 14.50	N. ZARETSKAYA et al.	The correlation between Geochronological and Archaeological time scales on the Late Gravettian sites in the Central Russian Plain (Khotylevo 2 case study)
14.50 – 15.10	E. VINOGRADOVA, N. LEONOVA	Late Upper Paleolithic of Lower Don: open-air sites of Kamennaya Balka
15.10 – 15.30	J. WILCZYŃSKI	Epigravettian settlement of Poland
15.30 – 16.30	Poster session	
16.30	Closing conference	

WORLD OF GRAVETTIAN HUNTERS

16-20 MAY 2016, KRAKÓW, POLAND

Conference programme – short communications and posters presentations

A. CALVO, A. ARRIZABALAGA	Linking two worlds. Gravettian economic territories and cultural traditions between the Cantabrian Region and the western Pyrenees
M. NOVÁK	Lithics from the southern edge of the Dolní Věstonice II site
G. CAPECCHI	New evidence of vegetable diet in the Gravettian of Grotta Paglicci Rignano Garganico, Puglia, Southern Italy)
E. CORMARECHE	Technical behaviours of the Late Gravettian in their palaeoecological context: from lithic industries to economic patterns
K. CYREK et al.	Gravettian layer of the Jasna Strzegowska Cave
M. KRAJCARZ, M. KRAJCARZ	Toward the understanding of geochemical homogeneity of Palaeolithic bone assemblages – the case of single-phase Gravettian site Jaksice II, southern Poland
A. LEMANIK et al.	Enamel thickness quotient (SDQ) of voles (genus <i>Microtus</i> , Arvicolinae) in Middle and Late Pleistocene: evolutionary and biostratigraphy aspects
P. MROCZEK et al.	A high-resolution micromorphological record of selected loess-soil sequences at Kraków Spadzista Gravettian site (C2 and E1 trenches)
A. NADACHOWSKI et al.	Influence of climate and humans on range dynamics of woolly mammoth (<i>Mammuthus primigenius</i>) in Europe during MIS 2
J. WILCZYŃSKI et al.	Studies on diversity of the Late Gravettian inventories of Central Europe
S. WOLF, N. CONARD	Personal ornaments of the Gravettian of the Swabian Jura (southwestern Germany) – the tear-drop-shaped beads revisited
